

Fall 2009 at the Village

Welcome to Dignity Village's website. We had a wonderful summer. We had a ton of people visiting us here, and helping out with some of the building projects. We got a few things done and are just finishing up with finishing the inside of the commons building. (sheet-rock , mud and tape) That has been a long road to getting that work done. We have started a few micro bussiness to help support ourselves here at the Village. We had yard sales and stuff like that over the Summer. As we face the winter months, with the cold weather we rely on your support to see that we can offer a warm place for other homeless people out there,with over night stays and with your warm gift of giving we know that we will be here to provide this service to the homeless people outside the village. Please ask for Joe, if you would like to donate to help us along , or need info as to what we are looking for as for donations of items we can use. e-mail at info@dignityvillage.org
